Apprentice Testimonials

"I have always had an interest in the IT industry but was unsure of how to get my foot in the door. But the apprenticeship programme provided me with the knowledge and hands-on experience I needed to develop my skills and meet industry standards. Being an apprentice is an exciting position as you are always learning and striving to improve your skills."

Mathew Cook
Tech Apprentice, Software Development

"The FIT Tech Apprenticeships gave me the chance to deepen & expand my knowledge in a unique way. The apprenticeship gave me the opportunity to have access to the real work environment in the software industry and boost my understanding of what Software Engineering really means."

Alina Calistru
Tech Apprentice, Software Development

Apprentice Testimonials

"The FIT ICT-AP apprenticeship really provided me with the opportunity to reach my full potential. Within the space of two years I went from working full time in a minimum wage job in the fast food industry to becoming a competent junior developer. I'm currently working as a software consultant with Guidewire Software, where I have been for over the last year and I'm enjoying minute of it. Without the opportunities provided throughout the ICT-AP course I would not be in this position today."

Alex Fanning
Software Consultant, Guidewire Software

"The FIT ICT Apprenticeship gave me the opportunity to gain industry experience with top Software company. It was challenging at first, but I was able to pull through with the help of dedicated Course Organisers and the Company. In the end I improved my overall skills set (Technical and Soft skills). I was able to secure a fulltime job as Quality Assurance with SAP at the end of the programme."

Aishat Ayanda
Software Developer, SAP
