Description

About Salesforce

We're Salesforce, the Customer Company, inspiring the future of business with AI+ Data +CRM. Leading with our core values, we help companies across every industry blaze new trails and connect with customers in a whole new way. And, we empower you to be a Trailblazer, too — driving your performance and career growth, charting new paths, and improving the state of the world. If you believe in business as the greatest platform for change and in companies doing well and doing good – you've come to the right place.

Infrastructure Engineering Apprenticeship

Salesforce's Infrastructure Engineering team delivers cutting edge software services that delight our customers and support our key goals around customer Trust. You will actively contribute to mission critical services and solutions as part of that team.

As an apprentice, you will have the opportunity to learn on the job with world class software developers and actively contribute to our exciting mission to deliver ever more reliable and resilient software solutions supporting our infrastructure. The Infrastructure Software Teams leverage cutting edge technologies to code, design and debug complex solutions to automate operational tasks. You will have the opportunity to operate as a fully functioning member of the team and gain valuable real world experience

During this experience, you'll be part of a wide apprentice community; spanning across Dublin and London, and across a variety of business units and roles. You'll also have access to a broader group of people that will support you throughout to develop both personally & professionally. The program will run in collaboration with Fast Track into Information Technology for two years and will provide you with the experience and knowledge to become a proficient software developer.

What are we looking for?

Below are some of the skills we expect Infrastructure Engineering Apprentices to demonstrate:

- Exposure to AWS, GCP or AZURE
- Excellent analytical, conceptual and problem-solving skills
- Self-starting, proactive and organised, as well as being capable of long-term thinking
- Passion for scaling systems and software
- Excellent English communication skills - written and oral
- A keen interest in the world of software development

What's in it for you?

- 25 days annual leave and additional
- Health insurance, dental insurance, travel insurance, vision benefit
- Monthly wellbeing reimbursement and Employee Assistance Programme (EAP)
- Pension package & Employee Stock Purchase Plan (ESPP)

Location

- Applicants must live within a reasonable commuting distance to Dublin and must be willing to attend college in person.

Accommodations

If you require assistance due to a disability applying for open positions please submit a request via this [Accommodations Request Form](#).

Posting Statement

At Salesforce we believe that the business of business is to improve the state of our world. Each of us has a responsibility to drive Equality in our communities and workplaces. We are committed to creating a workforce that reflects society through inclusive programs and initiatives such as equal pay, employee resource groups, inclusive benefits, and more. Learn more about Equality at www.equality.com and explore our company benefits at www.salesforcebenefits.com.
