

## Digital Learning Resources Coordinator (Instructional Designer)

- Fixed Term & Temporary
- Ireland - Dublin
- Full time or Part time 30 hours per week TBD
- Posted on 09<sup>th</sup> November.

### Description

#### About FIT

FIT is the national Coordinator for three innovative technical apprenticeship programme at NFQ Level that include the Software Development Associate, Computer Networking Associate and Cybersecurity Apprenticeship programmes, with plans to enhance the provision and scale of the tech apprentice intake in response to Industry demands. In addition, FIT is actively providing wrap-around supports to 3500 students via its training & employment teams, with an additional 7000 students engaging with FIT via its schools, digital pathways programmes, and other online platforms

To achieve scaling targets in the tech apprenticeship programme and to maintain a competitive edge in all other parts of the FIT organisation, including its schools' programmes, FIT Training and Employment teams, FIT is implementing a customised FIT learning management system for use by all students, apprentices, tutors, and FIT staff. This customised solution will ensure excellence in providing digital education offerings, leading to improved user functionality and efficiencies of scale. The learning management system will consolidate FIT's vision for a greater collaborative & blended learning environment to all new & existing FIT learners. By taking this step FIT will enable its learners to experience the best possible learning environment, thereby empowering them to achieve their own career goals. As part of this activity and a wider strategic goal, FIT is looking to add a '*Digital Learning Resources Coordinator (Instructional Designer)*' to its academic and programme development team.
